Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #38743

Uniform Crime Reporting Program Data: Arrests by Age, Sex, and Race, United States, 2018

1. **Changes in Methodology:** As of calendar year 2022, the Uniform Crime Reporting (UCR) Program has begun consolidating its data quality review and management practices to reduce differences between publication tables and the data displayed on the FBI website via the [Crime Data Explorer](#).
2. **Stata Limitations:** Due to Stata limitations, the variables **AREO**, **BREAK**, **CORE**, **GROUP**, **JUVDISP**, and **OFFENSE** do not contain value labels for non-integer values within the Stata files.
3. **Undocumented Codes:** The variables **JUVDISP** and **OFFENSE** contain undocumented values which ICPSR has labeled “UNDOCUMENTED CODE”.
4. **Data Discrepancies:**
 - a. The original data file contained 291 truncated records which ICPSR has dropped.
 - b. There are reporting agencies (**AGENCY**) which use the same 7-digit Originating Agency Identifier (**ORI**). For these agencies, ICPSR has converted the 7-digit ORI to the agency’s unique 9-digit ORI.
 - c. The variables **COUNTY**, **SEQNO**, and **COVBY** do not contain any valid responses.
 - d. The data in variables **STATE**, **OFFENSE**, and **OCCUR** are inconsistent with the descriptions of the variable in the codebook. In particular, please note that the discrepancy in **OCCUR** affects a significant percentage of the cases and multiple other variables.

No additional information was provided.

5. **Additional Information:** These studies are “static data snapshots” of the data available on the FBI website via the [Crime Data Explorer](#), which is continuously updated. For additional information on the Uniform Crime Reporting (UCR) Program, please visit the [UCR](#) website.

Uniform Crime Reporting Program Data: Arrests by Age, Sex, and Race, United States, 2018

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

ASR_ID: IDENTIFIER CODE FOR THE ASR MASTER FILE

Value	Label	Unweighted Frequency	%
3	ASR Master File	1474847	100.0 %
	Total	1,474,847	100%

Based upon 1,474,847 valid cases out of 1,474,847 total cases.

- Minimum: 3.00
- Maximum: 3.00

Location: 1-1 (width: 1; decimal: 0)

Variable Type: numeric

CONTENTS: RECORD CONTENTS

Value	Label	Unweighted Frequency	%
1	Agency header only	5007	0.3 %
2	Agency+month header only	0	0.0 %
3	Detail record	1469840	99.7 %
	Total	1,474,847	100%

Based upon 1,474,847 valid cases out of 1,474,847 total cases.

- Minimum: 1.00
- Maximum: 3.00

Location: 2-2 (width: 1; decimal: 0)

Variable Type: numeric

STATE: NUMERIC STATE CODE (FBI CODE)

Range is 01-62. Data records are in order by ORI code within numeric state code.

Value	Label	Unweighted Frequency	%
1	Alabama	30458	2.1 %
2	Arizona	20284	1.4 %
